

How To Recover Lost Partition On External Hard Drive

When a specific partition is deleted from a hard drive, all the files, documents, and folders will be completely wiped off. If you have lost your partition on your external hard drive and are looking for the procedure to recover the lost data, this page can help you do it in the best way possible. The most common reasons for losing a partition are disk formatting, bad sectors, accidental deletion, etc. But if the partition overlaps the existing partition, you cannot restore the one you have lost. Now, let us learn How To Recover Lost Partition On External Hard Drive.

```
C:\Windows\system32\diskpart.exe

DISKPART> list volume

Volume ###  Ltr  Label        Fs      Type        Size     Status       Info
-----
Volume 0      Y             DVD-ROM      0 B        No Media
Volume 1      G    Recovery    NTFS        Partition   450 MB     Healthy
Volume 2                      NTFS        Partition   99 MB      Healthy     System
* Volume 3      C             NTFS        Partition   51 GB      Healthy     Boot
Volume 4      D             NTFS        Partition   488 GB     Healthy
Volume 5      E             NTFS        Partition   390 GB     Healthy
Volume 6      F    Backup Driv NTFS        Partition   199 GB     Healthy

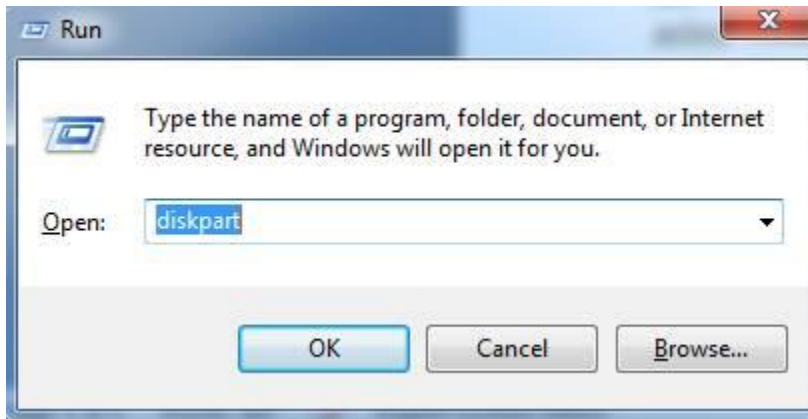

DISKPART> select volume 6
Volume 6 is the selected volume.

DISKPART> assign letter=0
DiskPart successfully assigned the drive letter or mount point.

DISKPART> exit_
```

RECOVER LOST PARTITION VIA DISKPART

- On your Windows computer, open the Run dialog box (Windows + R).
- Ensure that the hard drive is connected to your computer.
- Type diskpart and press Enter.

- Type the following command and press Enter.
- list volume

select volume n

assign letter=o

Note: replace n with your partition and o with the drive letter of your partition. Go to the Disk Management section and see if you have recovered the lost partition.

- If this step doesn't help you recover the lost data, proceed with the following section using lost partition data recovery tool.

RECOVER LOST PARTITION USING RECOVERY SOFTWARE

- There are several partition recovery tools available on the Internet. You can choose any recovery software according to your preferences.
- Therefore, download any partition recovery tool on your computer and install the software by following the instructions. Ensure that you've connected your external hard drive to your computer. **more...**
